DETAILED ACTION

This Office Action is in response to Applicant's Request for Continued Examination filed 8 October 2007.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless - .

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3 and 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Muhlbach et al. (US Patent 3,591,878).

Claim 1: Muhlbach'878 discloses a device that contains a pair of opposing, rotating wheels (11, 12; column 2, lines 45-46), a fillable reservoir of glue (78) (column 4, line 10) and a device to supply glue (74).

Claim 3: Muhlbach'878 discloses that the wheels can include barbs (14; column 2, lines 62-68).

Claim 4: The wheels are coupled to opposing, manually operated buttons (19, 20; column 3, lines 12-14).

Response to Arguments

Applicant's arguments with respect to claims 1, 3 and 4 have been considered but are most in view of the new ground(s) of rejection.
